SEED PRICE LIST

1949

ST. LOUIS SEED CO.

411 NORTH BROADWAY ST. LOUIS 2, MO.

ST. LOUIS SEED COMPANY—"Pure and Sure" Seeds

1949 PRICE LIST

Our annual catalogue is not being issued this year, due to the great advance in the cost of printing such a book, and the constant changing of prices, over which we have no control, on many of the articles that we stock.

We are offering this price list for 1949 and believe you will find it contains most of the items that were listed in our large catalogue. However, we shall be happy to answer all inquiries received on any items not listed herein.

We shall continue to supply "PURE AND SURE SEEDS" which means that our customers receive seeds which have been tested under varying conditions prior to sale; thus reducing to a minimum the possibility of failure.

Serving the market gardener, farmer and amateur for years, we have always kept before us the importance of "PURE AND SURE SEEDS" of the highest quality. That we have succeeded in our efforts to furnish seeds of this high quality is shown by the very remarkable loyal support on the part of our customers, many of whom started to trade with us years ago and are with us yet.

To the old and new customers alike, we are sincerely grateful.

Phone: Central 4100

ST. LOUIS SEED COMPANY
411 No. Broadway (at Locust)
St. Louis 2, Missouri.

SUGGESTIONS FOR ORDERING

WE WISH TO IMPRESS UPON YOU THE ADVANTAGE OF EARLY ORDERING. It is not only a convenience to us, but it is also for your sake that we request this. Avoid the spring rush and have your seeds when you want them. They will not spoil, and the delay necessarily attendant during the spring will be eliminated. You will not be waiting for your seeds when you should be planting. Our service will please you even during the busy season.

REMITTANCES should be made by Post Office Money Orders, Drafts or Express Money Orders. Where it is not possible to obtain these, the letter should be registered. We cannot guarantee receipt of money sent in any other way. Goods desired C.O.D., must be accompanied by a partial remittance to guarantee acceptance.

In filling out your orders always give SHIPPING DIRECTIONS and write NAME and ADDRESS distinctly on each order.

PARCEL POST: Customers on R.F.D. routes

and beyond express delivery will aid us by stating: "Goods reach us by Parcel Post only," to avoid mistakes in sending by express.

EXPRESS and FREIGHT CHARGES on large quantities are cheaper than parcel post. We charge no cartage to depots or the express company offices, nor do we charge for boxes, packing or small muslin bags. When seamless cotton bags are required they must be remitted for; 50¢ each.

ALL PRICES on VEGETABLE and FLOWER SEEDS are NET but on packages up to 5 lbs., WE PREPAY POSTAGE, EXCEPT WHEN NOTED.

PURCHASER pays transportation on plants, shrubs, potatoes, farm seeds, grass seeds, implements, sundries and poultry supplies, also garden seed in amounts over 5 pounds.

PRICES QUOTED in this price list are NET. We reserve the right to advance prices WITHOUT NOTICE should current conditions require it.

PLEASE NOTE - ABOUT WARRANTING SEEDS

NON-WARRANTY. Most of the failures with seeds, plants and bulbs are due to causes entirely beyond our control, such as unfavorable weather or soil conditions, too deep or too shallow planting, etc., which renders it impossible for us to guarantee success, and although we take all possible care to supply only such goods as will, under proper conditions, produce satisfactory results, we still give no warranty, express or implied, as to productiveness of any of the seeds, plants or bulbs we send out, and will not be in any way responsible for the crop. Our liability in all instances is limited to the purchase price of the seeds, plants or bulbs and every order for articles named in this price list will be executed on these conditions only. It must, however, be plain to everyone who gives the matter the slightest thought that it is to our best interests to send out only such stock as will not only grow, but prove true to name and description.

ST. LOUIS SEED COMPANY

ST. LOUIS SEED COMPANY—"Pure and Sure" Seeds

ST. LOUIS SEED CO.'S RELIABLE GRASS SEED
All our lawn grasses are recleaned and tested
for highest quality, purity and germination.
PRICES SUBJECT TO CHANGE WITHOUT NOTICE.
BY PARCEL POST, ADD POSTAGE.

One pound of LAWN SEED will sow 10 x 30 feet; 75 to 100 pounds to the acre.

St. Louis Seed Co.'s HAVALAWN GRASS SEED.

HAVALAWN is a mixture of the finest re-cleaned grass seed; a balanced mixture of Kentucky Blue, Red Top, Bent, Fescue and White Clover, the best sod and lawn producing grasses. HAVALAWN insures a steady succession of growth. Only seeds that produce fine velvety lawns are used.

1 lb. 90¢. .3 lbs. \$2.65. .5 lbs. \$4.45.

By Mail, add postage 5¢ Each

TIME OF PLANTING: The time for planting Dahlias, varies quite a good deal, according to the locality. In the central states, roots may be set out as early as May 1st in some sections, and from them until the middle of June. Some of our best blooms have been grown from roots planted about June 15th. Dahlias should be planted from 2½ to 3 feet apart and covered to a depth of 6 inches.

ST. LOUIS SEED COMPANY'S SELECT GLADIOLUS

By Mail, add postage 8¢ per dozen.

CULTURE: Gladiolus can be successfully grown in practically any soil and respond wonderfully to a little attention, such as timely watering and cultivation. (Planting). Have soil loose; make trench or hole deep enough so that bulbs can be covered with three inches of soil, (sandy soil 5 inches). Plant bulbs three inches apart in row. Use a complete fertilizer at planting time and again when buds first appear.

SOW "PURE and SURE" SEEDS
FOR A BETTER GARDEN AND A BETTER LAWN.

LAWNS

The essentials for a fine lawn are a rich, well drained soil; the soil should be spaded or plowed at least eight inches deep. Careful preparation of the ground, making it as fine and smooth and mellow as possible; a wise selection of seeds; sowing at such a time as to give the young plants a chance to become well established before being subjected to very dry weather or to the direct rays of the hot summer sun. Never work your soil while wet. This will sour the soil and your lawn will turn yellow during the growing season.

Good seed is the basis of a good lawn. Almost any lawn seed will give promising results in the early spring, but for the satisfaction that only a rich, green turf can give, select your lawn seed with care. Our seed is carefully selected, tested for purity and germination and our mixtures are a balanced blend of the finest lawn grasses. Each package bears a label giving full information as to the quality. Too much care cannot be bestowed on the selection of grasses. Seed may be sown in the spring or fall. If sown in the spring, sow as early as possible.

FERTILIZER

Soil needs plant food to keep it fertile. The use of fertilizer in your soil, for feeding the tiny plant roots is absolutely necessary for a fine lawn and better garden.

WATERING

Keep a newly seeded lawn moist until germination begins. After the lawn is established, water well at least once every two weeks. Water thoroughly, so that the ground becomes wet at least five to six inches below the surface. As the sun dries the surface, the roots go downward to obtain moisture. Do not sprinkle the lawn for short periods, but SOAK your lawn when it is in need of moisture. Light watering only brings the grass roots toward the surface for moisture and the hot sun will burn or kill them as the surface soil dries.

CUTTING

Let the grass grow to $2\frac{1}{2}$ to 3 inches tall before cutting, and then cut no shorter than 2 inches. The clippings need not be raked or removed from the lawn, as these will aid in retaining moisture and protecting the lower portions of grass and tiny roots from exposure.
